---	---	---	---	---	---	---	---	---

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Public Education and Outreach program will be tailored to describe topics related to the impacts of storm water discharges on local water bodies, pollutants of concern and their sources, and the steps that can be taken to reduce pollutants in storm water runoff and non-storm water discharges. The Village's program will make special note of the discharge of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the seasonal nature of many of the homes and residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of kiosks/displays of storm water information as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements. There are four kiosks/displays of storm water information in the Village.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this Measurable Goal during this reporting period?**
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of kiosks/displays of storm water information as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements in the next reporting cycle. The Village will continue to update the kiosks/displays with storm water/pollution prevention information periodically throughout the next reporting cycle.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	1	7
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

Village of Sag Harbor

 SPDES ID

N	Y	R	2	0	A	0	9	5
---	---	---	---	---	---	---	---	---

4.a. If this report was made available on the internet, what date was it posted?

Leave blank if this report was not posted on the internet.

		/			/				
--	--	---	--	--	---	--	--	--	--

4.b. For how many days was/will this report be posted?

3	6	5
---	---	---

If submitting a report for single MS4, answer 5.a.. If submitting a joint report, answer 5.b..

5.a. Was an Annual Report public meeting held in this reporting period?

Yes No

If Yes, what was the date of the meeting?

		/			/				
--	--	---	--	--	---	--	--	--	--

If No, is one planned?

Yes No

5.b. Was an Annual Report public meeting held for all MS4s contributing to this report during this reporting period?

Yes No

If No, is one planned for each?

Yes No

6. Were comments received during this reporting period?

Yes No

If Yes, attach comments, responses and changes made to SWMP in response to comments to this report.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	1	7

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Public Involvement and Participation program will incorporate stewardship activities that help to reduce pollutants of concern (i.e., the discharge of pathogens to Sag Harbor and Sag Harbor Cove) and encourage the general public, residents and businesses to become involved in storm water management and environmental stewardship activities.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of people attending community meetings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements. There were eleven people involved in the Village Harbor Committee and Tree Committee in this reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue evaluating the number of people attending community meetings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements in the next reporting period. The Village will continue to encourage participation in these committees in the next reporting cycle.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	1	7
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

---	---	---	---	---	---	---	---	---

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village Illicit Discharge Detection and Elimination program will focus on identifying, locating, eliminating, reducing and preventing illicit discharges to the Village municipal separate storm sewer system to the maximum extent practicable, including the discharge of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of illicit discharges confirmed as an indicator for measuring the overall effectiveness of the Village's compliance with the Illicit Discharge Detection and Elimination program requirements. There were no illicit discharges detected during this reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue following the written procedures in the CWP/USEPA Illicit Discharge Detection and Elimination: A Guidance Manual for Program Development and Technical Assessment. Illicit discharges will be investigated and eliminated according to the authority provided by the Village illicit discharge local law on a case-by-case basis.

Minimum Control Measures 4 and 5.
Construction Site and Post-Construction Control

The information in this section is being reported (check one):

- On behalf of an individual MS4
 On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1a. Has each MS4 contributing to this report adopted a law, ordinance or other regulatory mechanism that provides equivalent protection to the NYS SPDES General Permit for Stormwater Discharges from Construction Activities? Yes No

1b. Has each Town, City and/or Village contributing to this report documented that the law is equivalent to a NYSDEC Sample Local Law for Stormwater Management and Erosion and Sediment Control through either an attorney certification or using the NYSDEC Gap Analysis Workbook? Yes No NT

If Yes, Towns, Cities and Villages provide date of equivalent NYS Sample Local Law.

09/2004 03/2006 NT

2. Does your MS4/Coalition have a SWPPP review procedure in place? Yes No

3. How many Construction Stormwater Pollution Prevention Plans (SWPPPs) have been reviewed in this reporting period?

		0
--	--	---

4. Does your MS4/Coalition have a mechanism for receipt and consideration of public comments related to construction SWPPPs? Yes No NT

If Yes, how many public comments were received during this reporting period?

		0
--	--	---

5. Does your MS4/Coalition provide education and training for contractors about the local SWPPP process? Yes No

6. Identify which of the following types of enforcement actions you used during the reporting period for construction activities, indicate the number of actions, or note those for which you do not have authority:

- Notices of Violation #

Minimum Control Measure 4. Construction Site Stormwater Runoff Control

The information in this section is being reported (check one):

- On behalf of an individual MS4
 On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. How many construction projects have been authorized for disturbances of one acre or more during this reporting period?

		0
--	--	---
 2. How many construction projects disturbing at least one acre were active in your jurisdiction during this reporting period?

		0
--	--	---
 3. What percent of active construction sites were inspected during this reporting period? NT

--	--	--

 %
 4. What percent of active construction sites were inspected more than once? NT

--	--	--

 %
 5. Do all inspectors working on behalf of the MS4s contributing to this report use the NYS Construction Stormwater Inspection Manual? Yes No NT
 6. Does your MS4/Coalition provide public access to Stormwater Pollution Prevention Plans (SWPPPs) of construction projects that are subject to MS4 review and approval? Yes No NT
- If your MS4 is Non-Traditional, are SWPPPs of construction projects made available for public review? Yes No

If Yes, use the following page to identify location(s) where SWPPPs can be accessed.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	1	7
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

Village of Sag Harbor

SPDES ID

N	Y	R	2	0	A	0	9	5
---	---	---	---	---	---	---	---	---

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village Construction Site Storm Water Runoff Control program will provide equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The review process will take note of the potential for discharges of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the Village due to the Village's zoning. The Village has chosen to evaluate the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff program requirements. The Village will review and comment on SWPPPs submitted to the Village as they are submitted.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff program requirements in the next reporting cycle. The Village will review SWPPPs if and when they are submitted for Village comment and approval.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Post-Construction Storm Water Management program will address storm water runoff from regulated (i.e., land disturbances of an acre or greater) new development and redevelopment projects to the Village's municipal separate storm sewer system.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the Village due to the Village's zoning. The Village will add applicable storm water BMPs to the inventory if they are installed and plans to evaluate the number of storm water BMPs inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of storm water BMPs inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements in the next reporting cycle. The Village will add BMPs to the inventory as necessary in the next reporting cycle.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

<u>Operation/Activity/Facility</u>	<u>Addressed in SWMP?</u>		<u>Self-Assessment Operation/Activity/Facility performed within the past 3 years?</u>

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Pollution Prevention and Good Housekeeping for Municipal Operations program will address operations that collect, store or release sediments, wastes or other potential pollutants with special consideration for discharges of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of catch basins inspected annually as an indicator for measuring the overall effectiveness of the Village's compliance with the Pollution Prevention and Good Housekeeping for Municipal Operations program requirements. The Village inspected and cleaned as necessary 494 Village catch basins in this reporting cycle. The Village also has grates installed on all catch basins in the business district to catch floating debris.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of catch basins inspected annually as an indicator for measuring the overall effectiveness of the Village's compliance with the Pollution Prevention and Good Housekeeping for Municipal Operations program requirements in the next reporting cycle. The Village will continue to follow the BMPs outlined in the NYSDEC Municipal Pollution Prevention and Good Housekeeping Assistance Document as necessary.

Pathogen Impaired Watershed Improvement Strategy AreasPERMIT # Waterbody Name MS4 Name Reporting Period Ending
(mm/dd/yyyy) / / **Reaffirmation for No Discharge**

- The Municipal Separate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16) including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains that the owns or operates does not have any outfalls that discharge directly or indirectly through another MS4, into the

Watershed Status

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

The Village has included pathogen-specific source control BMPs in their SWMP, which are discussed further below, and submitted mapping and land use data to DEC for the Sag Harbor, Zone SH-2 sewershed.

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

The Village has no reason to conclude that there are other sources of pathogens than the ones listed in the TMDL at this time.

Public Education & Outreach of Pathogens as the Pollutant of Concern

1. Description of the education program.

The Village's Public Education and Outreach program incorporates topics related to the sources, impacts and reduction of pathogens. The Village has an active Harbor Committee advisory board that addresses water quality. Educational materials are distributed on the Village's website and made available at kiosks throughout the Village.

2. Who are the target audiences and what is the message delivered to each target audience?

Target audiences are the general public (e.g., public employees, residents, businesses). The message is that pathogens in storm water can impact their health, recreation and the local economy. A number of easily adopted source control practices are also suggested.

3. How are behavior changes being measured?

Due to the seasonal nature of many of the residents and businesses, the Village evaluates the occurrence and/or participation in the educational programs as a measure of SWMP effectiveness. For example, the Harbor Committee meets monthly.

Permit #

NYR20A095

4. What are the education plans and goals for the next 6 months?

The Village plans to continue implementing the established public education and outreach program requirements in the next 6 months.

Illicit Discharge Detection and Elimination

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

The Village has continued to implement its ORI program of inspecting every Village outfall once every five years, which is the responsibility of DPW staff. Staff in other Village departments that conduct regular field activities have been instructed to keep an eye out for evidence of illicit discharges during their daily operations.

Answer Either 6a. or 6b.6a. No Illicit Discharges were discovered during this reporting period
Explain how the determination for No Illicit Discharges was made

All Village outfalls within the Village's Sag Harbor, Zone SH-2 sewershed were inspected in this reporting period. Evidence of illicit discharges were not observed during the ORI inspections.

6b. Illicit Discharges were discovered during this reporting period
What has the municipality determined from the illicit discharges that have been found?**Complete Either 7a. (Map) or 7b. (Written Response)**

7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

7b. Give the number of inspections performed during this reporting period. # Inspections
(Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

Permit #

NYR20A095

Post Construction Stormwater Management

8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody # SMPs 0
- As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted
- a. Describe the municipality's policy on post construction stormwater management

The Village Post-Construction Storm Water Management program addresses storm water runoff from regulated (i.e., disturbances of an acre or more) development projects. The Village recommends and encourages the use of BMPs for development projects through the SWPPP review and site plan approval process. The Village considers the use of green infrastructure measures in capital improvement projects.

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

The Village is awaiting the revision of the TMDL for Sag Harbor, Zone SH-2 and notification of the Village's individual responsibilities for pollutant load reductions through the MS4.

Municipal Operations Pollution Prevention/Good Housekeeping

- Non-Traditional MS4 (skip Question 10)

- 10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The Village has identified the proper collection and disposal of dog waste as a concern in the Village. However due to the seasonal nature of many of the residents, dog waste is not a year-round issue.

- 10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

Approximately 75% of the Sag Harbor, Zone SH-2 sewershed are areas where pet populations are expected to be in higher concentrations (i.e., residential areas). Incidences of pet waste being disposed of improperly have anecdotally decreased over the last decade.

- 10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

The Village provides education on the proper disposal of dog waste. The Village Code specifically requires dog waste in any public place, beach or street to be cleaned up and disposed of immediately. To encourage the proper disposal of dog waste, the Village maintains a number of pet waste bag stations and receptacles.

PERMIT # NYR20A095

- 10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

The Village evaluates the pet waste bag program as a measure of SWMP effectiveness. For example, the Village monitors and fills the pet waste bag stations and empties receptacles on a daily basis.

- 11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

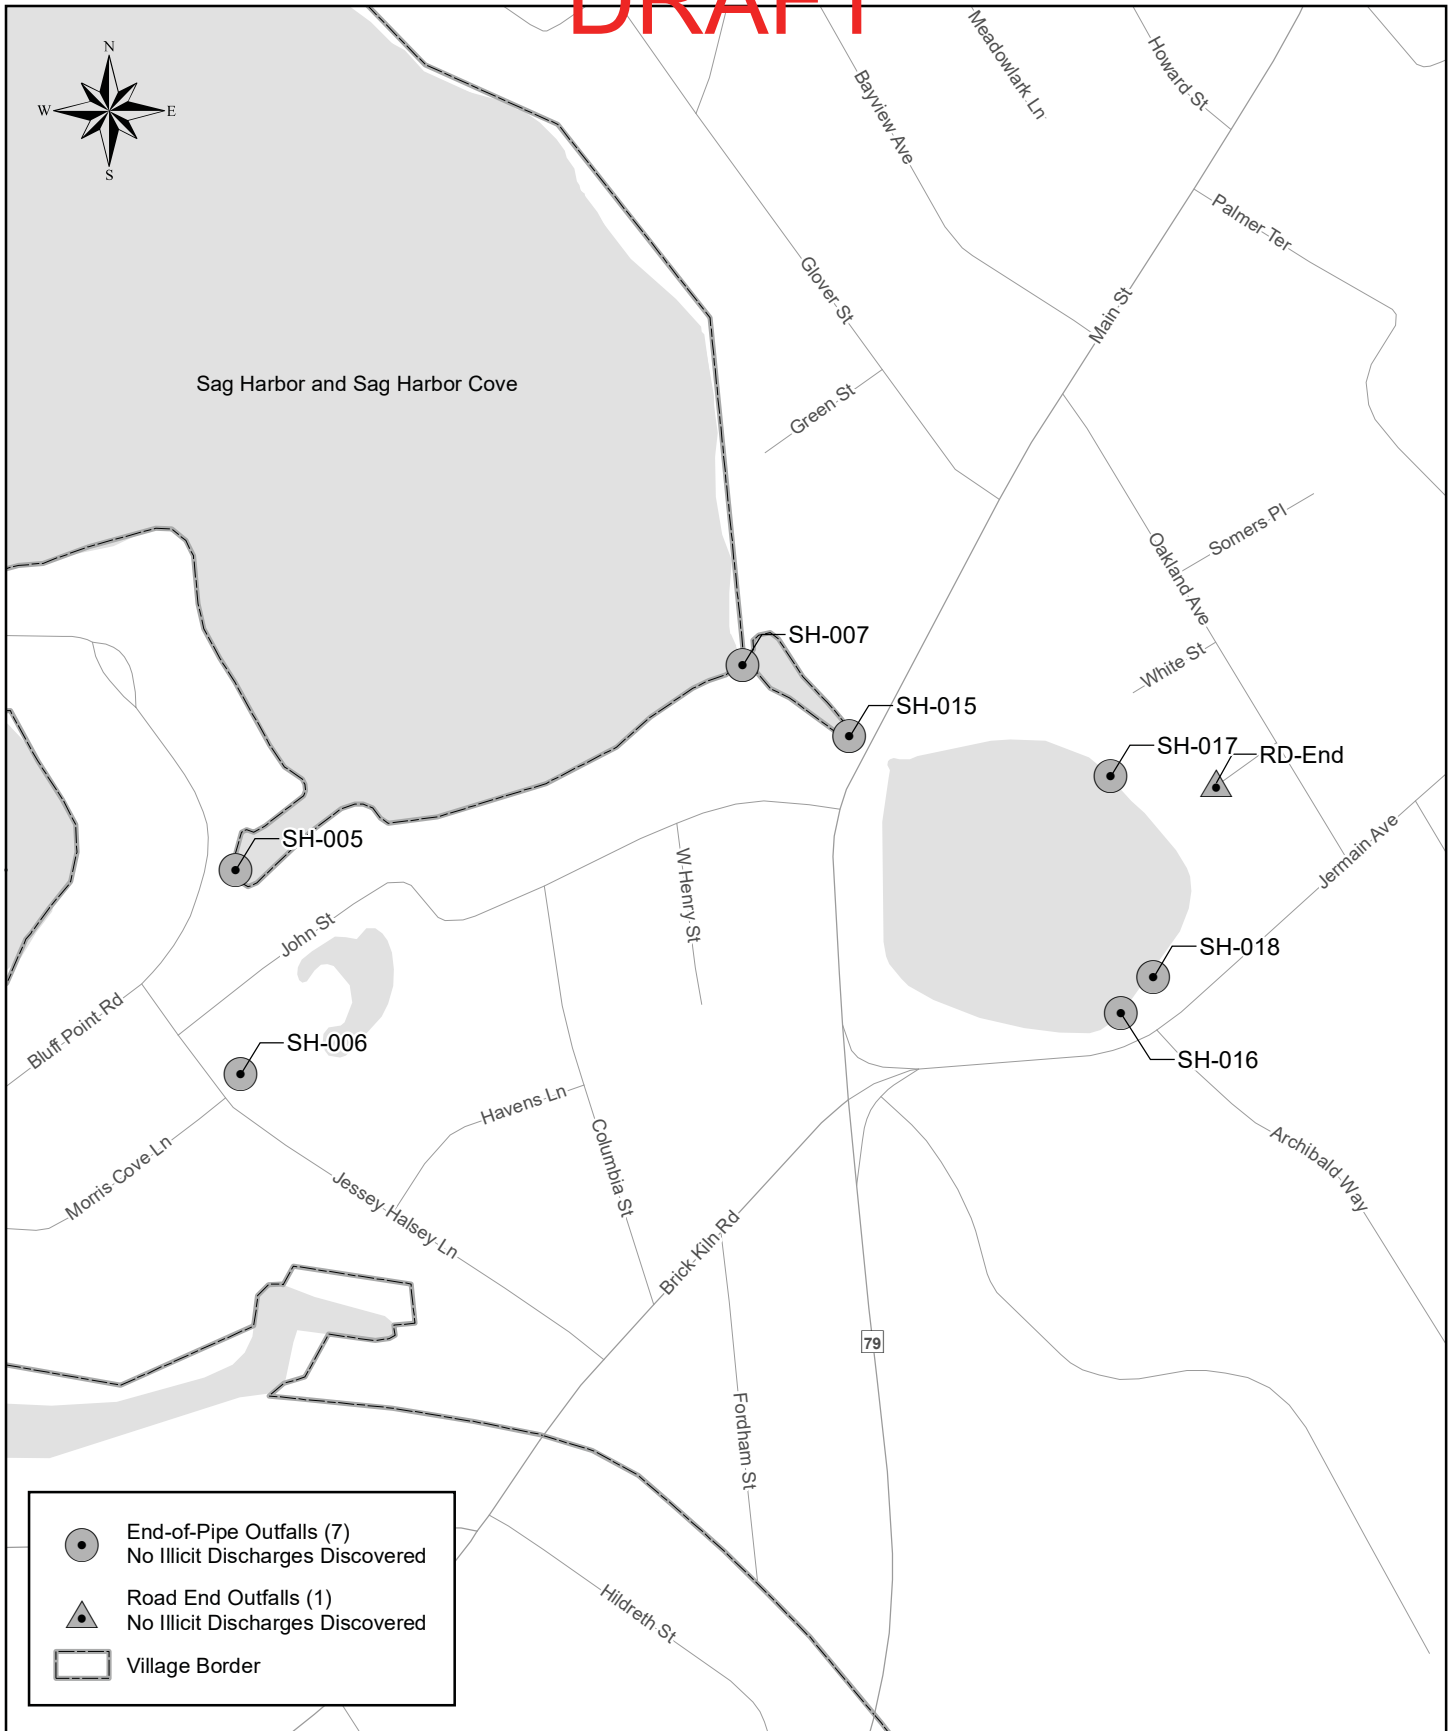

The Village does not have a significant goose population within its borders. Village employees rarely witness flocks of geese on Village properties.

- 11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

- 11c. What strategies are in place to manage the population of geese on municipal properties?

- 11d. What measurable indicators are being used to help determine the effectiveness of these strategies?
