4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Public Education and Outreach program will be tailored to describe topics related to the impacts of stormwater discharges on local water bodies, pollutants of concern and their sources, and the steps that can be taken to reduce pollutants in stormwater runoff and non-stormwater discharges. The Village's program will make special note of the discharge of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the seasonal nature of many of the homes and residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of kiosks/displays of stormwater information as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements. There are three kiosks/displays of stormwater information in the Village.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of kiosks/displays of stormwater information as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements in the next reporting cycle. The Village will continue to update the kiosks/displays with stormwater/pollution prevention information periodically throughout the next reporting cycle.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village Construction Site Stormwater Runoff Control program will provide equivalent protection to the NYS DEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The review process will take note of the potential for discharges of pathogens to Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the Village due to the Village's zoning. The Village has chosen to evaluate the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Stormwater Runoff program requirements. The Village will review and comment on SWPPPs submitted to the Village as they are submitted.

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Stormwater Runoff program requirements in the next reporting cycle. The Village will review SWPPPs if and when they are submitted for Village comment and approval.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
