INTRODUCTORY LAW NO.
LOCAL LAW NO. OF 2022

Be it enacted by the Village Board of Trustees of the Village of Sag Harbor as follows:

A LOCAL LAW to amend Village Code §§300-15.3(C) and (D) and §300-11.23(D)(10) to clarify the definition of waterfront lots and limit the permitted height of structures on waterfront lots in the WFOD to 25 feet to ensure viewsheds to the waterfront are preserved in the Village of Sag Harbor

SECTION 1. Legislative Intent.

The Village Board of Trustees seeks to ensure that the intent and goals of the waterfront overlay district are maintained and after further review, seeks to limit the height of all waterfront properties in the Waterfront Overlay District to 25 feet. Additionally, the Board seeks to clarify

the definition to ensure all intended waterfront parcels are included in the “waterfront lot” definition. Finally, this local law seeks to eliminate the option of providing a ten foot easement offering public access to the waterfront in exchange for a third story or 35 feet in height and provide that standard in addition to the 25 foot height limit for waterfront lots.

SECTION 2. Amendment. Please see the following and amend Village Code §300-15.3(C), by deleting those words that are stricken and adding those words that are underlined:

The permitted height of structures that are not waterfront lots in the WFOD shall be governed by the underlying zoning district regulations for that property as set forth in Chapter 300, Attachment 2, Table of Dimensional Regulations.

~~(3)~~

~~To the extent a third story is permitted as set forth in Subsection D(2) above, a third-story stepback for front, corner and side facades facing the street shall be created at a minimum of 10 feet.~~

The maximum height of structures in the WFOD shall be governed by Village Code § ~~300-15.3D~~. ~~except that for a waterfront lot over 3,500 square feet in gross floor area in the VB Zoning District within the WFOD, the Village Board of Trustees may, where appropriate, permit an increase of height to three stories or 35 feet, conditioned upon the applicant providing the construction of a permanent accessible pedestrian walkway, a minimum of 10 feet in width, for public use, providing public access to the waterfront. The Board may consider a proposed public access along the waterfront side of the property provided there is already public access leading to it. The proposed public access shall mitigate the impact of allowing for an increase in height of structures on the waterfront.~~
